**Interconnected Systems Framework (ISF):
*Connecting the Dots of School Mental Health***

Section 3:

***The Interconnected Systems Framework (ISF): Interconnecting
School Mental Health and Positive Behavioral Interventions and
Supports (PBIS)***

In Regards to Providing Mental Health Services in Schools...

What do you already know?

What do you want to know?

What are you excited about?

What are your fears/reservations?

Knowing schools can't do it alone, who else needs to be involved to foster student well-being, healthy behaviors, and to prevent mental health issues?

--

Brainstorm possible limitations for supporting the mental health needs of all students.

Limitations of PBIS?	Limitations of School Mental Health Supports?

In relation to this Idaho data, where are you now?		
Something I'm questioning...	Something that surprised me...	Something I've learned that I'd like to share...

Foundational Elements of the Interconnected Systems Framework	
<i>Element</i>	<i>Description</i>
A Single System of Delivery	
All Students Need Access to Mental Health Support	
Access is NOT Enough: Student Impact Defines Success	
Core Features of MTSS	

Reflecting on Virtual Learning Module #3: *PBIS and ISF*

A major takeaway is...	Something I'm questioning...	I plan to utilize this information by (action item) ...
